

Safety, Health & Environment Policy

Artson Engineering Limited engaged in EPC contracts in Oil & Gas sector, is committed to being an industry leader in conducting our business responsibly so that we protect our employees, associates and environment. Our safety, health and environment commitment is a core value of the corporation and an integral part of our business activities.

We are responsible to provide a safe and healthy work environment for our co-worker, contractors, visitors and communities within our premises.

We shall strive to continually improve the effectiveness of Safety, Health and Environment management system by:

- Compliance with applicable legal and other requirements.
- Providing safe and healthy work place environment for all employees including those employed by subcontractor.
- Establishment of procedures to recognize, implement, evaluate and monitor safety, health and environment performance.
- Continual improvement of safety, health and environment performance through setting and reviewing objective and target, prevention of pollution and reduction of adverse environment impacts.
- Periodical review to ensure that the policy continues to be relevant and appropriate to the organization.
- Safe upkeep of all tools, equipment & machinery and conservation of natural resources.
- Appropriate level of safety, health and environment training.

The policy is communicated to all persons working for or on behalf of organization and is made available to the public.

We realize that our most valued assets are employees and their health and safety is of utmost important to our business.

Both the management and employees consider themselves as a team and are responsible for working together to accomplish the common goal of safety, health and environmentally compliant workplace.
